

PWO Frontend API and Sharing Notes

Starter frontend notes for document browsing and sharing.

Dominion City New Facility - PWO Documentation Starter Pack

Section	Notes
Manifest	GET /docs/manifest returns the current document metadata and route URLs.
Download	Use /docs/download/{slug}; do not link directly to storage paths.
Share	Use /docs/{slug} for user-facing share URLs and native share where supported.

Production note: replace this starter PDF with the approved PWO documentation before launch. The website route and metadata structure can stay the same.
