

PWO Operations Process Guide

Starter operating notes for PWO documentation management.

Dominion City New Facility - PWO Documentation Starter Pack

Section	Notes
Ownership	Document metadata is registered in config/pwo_documents.php and rendered by DocumentSe
Review	Replace starter PDFs with approved PWO files before production release.
Workflow	Keep slugs stable so shared links remain valid when files are updated.

Production note: replace this starter PDF with the approved PWO documentation before launch. The website route and metadata structure can stay the same.
